## ZERO WASTE / RECYCLING

A few lines to inspire people to tread lightly on this beautiful planet  
by Marianne Tremp

Plastic #2 can go in the recycling bin as well.

Milk and juice bottles, detergent, shampoo and conditioner bottles, water pipes and grocery bags - Plastic lids and caps should be placed inside a clear milk bottle, and once full, placed in your yellow bin. **Pump mechanisms often contain a metal spring so once you remove the spring and put it in a tin can with the beer bottle lids, you can put the other bits of plastic in the milk bottle too.**

Recycled HDPE is often used to make things like piping, plastic lumber, recycling bins, and rope, park benches which are resistant to graffiti and outdoor furniture

Plastic Recycling Facts ([recyclingdepotadelaide.com.au](http://recyclingdepotadelaide.com.au)):

- The energy saved by recycling just one plastic drink bottle is enough to power a personal computer for about 25 minutes.
- It takes 25 two litre plastic bottles to make a large sized fleece jacket.
- As plastic decomposes, methane is produced, which is 20 times stronger than carbon dioxide.
- Plastic bottles not recycled, thrown away irresponsibly are responsible for killing birds and marine life.
