

MEDIA RELEASE

30 JUNE 2023

Cummins Township Master Plan released for public comment

Stage 2 of community consultation for the draft Cummins Township Master Plan is now open.

Planning consultants Holmes Dyer are conducting the second stage of community consultation on the draft plan on behalf of Lower Eyre Council. The project team along with Council have been undertaking a master planning exercise which aims to identify opportunities and constraints for key areas including:

- Open space;
- Housing;
- Cummins Institute, community and tourism infrastructure;
- Main street enhancements and rail corridor; and
- Road, traffic and infrastructure upgrades.

Following the first stage of consultation which occurred in October 2022, feedback was collated and reviewed to inform the actions and recommendations set out in the Master Plan and Implementation Strategy.

The purpose of the second stage of consultation is to raise community awareness of the proposed draft Master Plan initiatives, actions and recommendations and encourage feedback from the community on the priorities, timeline and types of identified outcomes.

You can view the relevant documents, including a fact sheet on Council's website.

HAVE YOUR SAY

View the draft Cummins Township Master Plan on Council's website and share your thoughts by completing the online survey, or come along to the community drop-in session.

Online Survey

Available on Council's website, the survey closes at 5pm Monday, 24 July 2023.

Drop-In Session

Holmes Dyer is hosting a drop-in session where you can find out more information about the key findings of the draft Master Plan and provide verbal feedback.

Where: Cummins Institute

When: Friday, 7 July 2023, any time between 10:30am and 1:30pm
